Fresh Fruit, SOLICITATION NO: 2000003490

The U.S. Department of Agriculture (USDA) invites offers to sell Fresh Fruit pursuant to the AMS Master Solicitation for use in the National School Lunch Program and other Federal Food and Nutrition Assistance Programs. Acceptances will be announced by midnight, August 28, 2015. Deliveries are to be made between October 1, 2015 through March 31, 2016.

A. Product Origin

Commodities delivered pursuant to awards under this Solicitation shall have originated from crops that have been 100 percent grown, processed, and packed in the United States, its territories or possessions, the Commonwealth of Puerto Rico, or the Trust Territories of the Pacific Islands, (hereinafter referred to as the United States). See Section I.F. of the Master Solicitation.

If the contractor handles any commodity originating from sources other than the United States, the contractor must have a written plan to segregate the commodity. This segregation plan will include an identification and record system for all commodities to ensure they are completely segregated and cannot be used to fulfill purchase orders awarded by USDA. Such segregation plan must be made available, within 10 days of purchase order award, to representatives of the Agricultural Marketing Service (AMS). The contractor must maintain positive written documentation records evidencing 100 percent domestic origin to the grower level. Contractors must also ensure that the documentation provided by any subcontractors demonstrates the same level of traceability. The burden of proof of compliance is on the contractor. Documentation may include load or warehouse storage receipts for raw product (i.e., bin tags), product blend (formulation) records, product coding explanations, finished product warehousing records, shipping or payment records, or other documentation or evidence that clearly establishes the product's domestic origin. Contractors must provide the domestic origin certification and supporting documentation records to representatives of the AMS Fruit and Vegetable Programs, Specialty Crop Inspection Division (USDA Grader) when requesting inspection service. USDA graders will select and review at least one code for each purchase order to determine compliance with the Agency's domestic origin requirements. Such records must be available for review by the Government in accordance with FAR 52.214-26. In the event of an audit, AMS auditors will examine as many codes as is necessary to verify compliance. Self-certifications by contractors and subcontractors will not be accepted.

Failure to observe this requirement may lead to suspension or debarment, purchase order termination, and penalties at Title 18, Section 1001 of the U.S. Code concerning falsification of information.

B. Packing Season

All fresh fruit must be from the current packing season/crop year.

C. Audits

Vendors and/or suppliers providing fresh fruit shall participate in and pass an Agricultural Marketing Service, Good Agricultural Practices (GAP) and Good Handling Practices (GHP) Verification Audit. Verification Audits shall be performed by the United States Department of Agriculture (USDA), Agricultural Marketing Service (AMS), Fruit and Vegetable Programs (FVP), Specialty Crop Inspection Division (SCI). All scopes of the audit

applicable to the operation must be completed. For instance, if a grower has a storage facility on their farm where apples are stored prior to sending them to the sliced apple vendor, then the appropriate section of the audit must be completed. A copy of the GAP&GHP Audit Verification checklist is available on the USDA website at www.ams.usda.gov/gapghp, or from your local USDA or Federal-State inspection office.

D. Inspection Requirements

Inspection must be performed at destination by the USDA, AMS, Fruit and Vegetable Programs, Specialty Crop Inspection Division (USDA Grader) (see Section X of the Master Solicitation). The fresh apples shall be inspected, certified, and count (number) of packages verified in accordance with the Agricultural Marketing Act of 1946. The acceptability of the quality and packaging of the product must be evidenced by certificates issued by the USDA Grader. Representative sample units will be graded according to the Regulations Governing Inspection and Certification of Fresh Fruit and Related Products (7 C.F.R. part 51), and United States Standards for Condition of Food Containers (7 C.F.R. part 42.140), effective on the date of the Solicitation/IFB.

The Contractor must give the USDA Inspector at least 72 hours advance notice when scheduling inspection service. Contractors are encouraged to submit requests for inspection in writing via form FV-237 (Record of Request for Inspection or Re-inspection of Food Products) with verifiable receipt notice, such as fax log, to alleviate possible miscommunication. Requests can also be made electronically using the following link: <http://eforms.ams.usda.gov/#CustomersFV>

E. Specifications

The attached commercial Specifications apply to all product supplied to the following destinations, as follows:

Specification A Dauberville, PA
 Specification B Oxnard, CA
 Specification C Shelby, MI
 Specification D Richland Center, WI
 Specification E Hartford, MI

F. Failure to Meet Specifications

Any lot which fails applicable specifications prescribed (See Item E) will be rejected as not acceptable for delivery. If any lot of fresh fruit fails to meet the product or packaging requirement, the Contractor may request in writing that USDA accept delivery of the lot. USDA may, at its option, accept delivery, provided that the purchase price is the purchase order price less a discount, to be determined by the Contracting Officer.

This Solicitation may show multiple stops on some line items; however, the number of stops will be limited to a maximum of three. To determine the number of destinations review the "Tendering Text" for the lot, which will indicate the City and State for each stop. Bidders may submit different prices for each stop. However, a price is required on all line items within the lot.

In order to verify that the contractor is in compliance with GAP/GHP certification, contractors shall meet the following requirements:

1) Contractors are required to:

1. The first time noncompliance occurs AMS will deduct a 50% discount from the invoice for all noncompliant deliveries.
 2. The second time noncompliance occurs:
 - a. USDA/AMS will deduct a 50% discount from the invoice for all noncompliant deliveries;
 - b. The contract will be terminated for default; and
