Part 1 COMMODITY SPECIFICATIONS

Section 1.1 COMMODITIES

- A. Quality of Rice Products
Rice products delivered shall meet the specifications of the class and grade offered as defined in the “United States Standards for Milled Rice,” in effect on the date the solicitation is issued. The standards are available at: http://www.gipsa.usda.gov/fgis/inspectionsservices_ricestandards.aspx. Rice products shall be a US No. 2 or better well milled rice, unless so specified.
- (1) Rice products, excluding Brown rice products, produced and delivered shall be enriched.
 - (2) Rice products of special grades “parboiled light” or “parboiled” which meets class and grade specifications of U.S. No. 1 will only be acceptable for those items specifying “parboiled.” “Parboiled light” or “parboiled” shall not be substitutable for other classes of rice.
 - (3) Enriched rice products (including “parboiled light” or “parboiled”) shall comply with the standards for enriched rice established by the FDA, in the Code of Federal Regulations, Title 21, Chapter 1, Part 137, Subpart B, Section 137.350, which is available at: <https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfCFR/CFRSearch.cfm>, except that the optional enrichment ingredients will not be included.
 - (4) Rice coated with talc and/or glucose, is not acceptable and will be rejected if delivered. No specialty, including but not limited to aromatic rice, will be acceptable unless specified in the solicitation.
- B. Brown Rice shall be U.S. No. 1 long grain, medium grain, or short grain brown rice for processing, as defined in the “United States Standards for Brown Rice for Processing,” which is available at http://www.gipsa.usda.gov/fgis/inspectionsservices_ricestandards.aspx, in effect on the date the solicitation is issued.
- C. Parboiled brown rice shall be U.S. No. 1 long grain brown rice or U.S. No. 1 medium grain brown rice which has a cooking time which falls within the range of 10 to 28 minutes.
- D. All rice products for delivery to destinations in the State of Hawaii shall be U.S. No. 1 Medium Grain (California-grown) only.
- E. Rice products for delivery to destinations in the State of Hawaii shall have a zero tolerance for *Aeschynomene indica* L., more commonly known as Kat sola, Indian joint vetch, Indian vetch seed or Indigo. The Grain Inspection, Packers & Stockyards Administration (GIPSA) will reject products destined for Hawaii which contain any portion of *Aeschynomem indica* L.

- F. The Government will accept delivery of rice products grading better than the specified contract grade, but no adjustment in contract price will be made for rice products better than the contract grade.

Section 1.2 WARRANTY

Product shall not be manufactured more than 30 days prior to shipping. Manufactured date is defined as the calendar date on which the rice is milled.

- A. The milled and parboiled rice products delivered shall have a shelf life of six months from the date of manufacture.
- B. The brown rice products delivered shall have the following shelf life:

| PRODUCT | TEMPERATURE | SHELF LIFE |
|----------------|----------------------|-------------------|
| Brown Rice | 50° – 70° Fahrenheit | 3 months |
| Brown Rice | 30° – 40° Fahrenheit | 6 months |

Section 1.3 FUMIGATION

- A. Not more than 10 days prior to packaging, the rice products shall be fumigated with the food safe formulations of Aluminum Phosphide, Carbon Dioxide, Methyl Bromide, or Sulfuryl Flouride in a quantity and manner which will effect a kill in all stages of weevil or other insect infestation. All fumigant must be applied according to the Environmental Protection Agency (EPA) label.
- B. The contractor shall submit with its invoice for payment, a statement certifying that the rice products were fumigated in accordance with this requirement. The Fumigation Certificate shall indicate the chemical, Aluminum Phosphide, Carbon Dioxide, Methyl Bromide, or Sulfuryl Flouride used in the fumigation process. The Fumigation Certificate shall cite the actual date the rice was fumigated. The fumigator’s license number shall be cited on the Fumigation Certification statement.

Section 1.4 INSPECTION

- A. Inspection of the product shall be performed by the Grain Inspection, Packers & Stockyards Administration (GIPSA). Procedures to follow and a schedule of fees for this service may be obtained at <http://www.gipsa.usda.gov/fgis/gradingprocedures.aspx>, select Service Provider Information.

The applicant is responsible for providing all applicable contract documents and specifications to GIPSA. The quality, weight, and packaging of the product shall be evidenced by commodity inspection certificates issued by GIPSA. The GIPSA certificate must cite the Contract/WBSCM Purchase Order (PO), PO Item Number, Sales Order (SO) Number and SO Item Number or Purchase Requisition (PR) and PR Item Number. Contractors are required to notify the Government immediately of lots that fail to meet contract requirements.

B. Enrichment

The GIPSA certificate will also cite whether or not the rice is enriched. Testing of the product for enrichment, if applicable to the commodity, shall be performed by the Grain Inspection, Packers & Stockyards Administration (GIPSA). GIPSA shall verify the presence of enrichment for each inspected lot. Enrichment results will be shown in the factor section of the certificate.

Applicant statements in regard to enrichment will not be accepted by GIPSA.

C. Citations

The GIPSA certificate must cite the Contract/WBSCM Purchase Order (PO), PO Item Number, Sales Order (SO) Number and SO Item Number or Purchase Requisition (PR) and PR Item Number. Contractors are required to notify the Government immediately of lots that fail to meet contract requirements.

D. Shipping

Contractors shall not ship the product unless informed by GIPSA that the containers and markings meet the Acceptable Quality Level (AQL) of the “U.S. Standards for Condition of Food Containers,” which are available at: http://www.access.gpo.gov/nara/cfr/waisidx_04/7cfr42_04.html. Notice by GIPSA that a designated lot scheduled for shipment does not meet the AQL will constitute rejection to the contractor of such lot. Except with respect to shipments that do not meet the AQL standards, the contractor may ship the product prior to receipt of the commodity testing and analysis results (when required) in which event the contractor assumes all risks and liabilities that arise with respect to the failure of the shipped product to meet contract specifications.

E. If the product fails to meet contract specifications on one or more factors on the first inspection, the contractor may arrange with GIPSA subsequent inspections of the commodity. The inspections may be conducted at origin or a subsequent point of delivery if the provisions of Title 7 CFR 68.44 through 68.63 issued under the Agricultural Marketing Act of 1946, as amended, with respect to retest, appeal, and new inspections can be met. When subsequent inspections of the product are made, the results of the last inspection will be used as the basis for payment under the contract.

F. Checkloading

All rice shall undergo checkloading. Checkloading shall be performed by the Grain Inspection, Packers & Stockyards Administration (GIPSA) or their authorized designee(s). GIPSA checkloading shall include the process of performing a stowage examination on a carrier, computing the number of filled rice containers loaded aboard the carrier, observing the condition of the rice containers loaded aboard the carrier, witnessing the sealing the carrier, if practicable, and certifying the results.

GIPSA checkloading, including witnessing sealing the carrier, does not release the contractor from, or take the place of the seal requirements, cited in the Master Solicitation for Commodity Procurements, Seals on Transportation Conveyances.

G. Hawaii California-grown

Rice for delivery into the State of Hawaii shall be “California-grown.” The Grain Inspection, Packers & Stockyards Administration (GIPSA) will provide one of the following statements, if known not to be false or misleading, in the Remarks Section of the Rice or Commodity Inspection Certificate:

“Applicant states that the variety of this rice is (variety).”

“Applicant states that this rice was grown in the State of (state).”

The Contractor will ensure this information is provided on the Application for Inspection provided to GIPSA’s inspector prior to inspection.

Section 1.5 “KOSHER ONLY” PRODUCTS

“Kosher Only” products will be identified in the solicitation. Kosher only products shall comply with applicable dietary (kosher) laws as established by the “613 Council of Kashruth.” Manufacturing plants shall be certified for compliance with the aforementioned requirement by contacting the Board of Jewish Education of Greater New York (BJENY) at 646-472-5365. A rabbinic supervisor will be sent to certify compliance of the manufacturing plant with the dietary (kosher) laws.

Offeror shall certify that their manufacturing plant is capable of meeting applicable dietary (kosher) laws as established by the “613 Council of Kashruth” and certification by BJENY.

Part 2 CONTAINER AND PACKAGING REQUIREMENTS

Section 2.1 GENERAL

This part provides the container specifications and packaging materials requirements used under this contract.

Section 2.2 COMMERCIAL PACKAGING

- A. Contractors shall supply commercial brand products only and shall certify at the time of submission of an offer that the commercial product being delivered has a history of successful distribution and use in domestic commercial channels and is sold on the commercial market with an established level of consumer acceptance.
- B. Container and packaging requirements are those used in the current commercial shipping practices and shall comply with:

- (1) Unitization requirements in Section 2.4.
- (2) At contractor's option, a statement such as "Not for Retail Sale" may be printed on the principal display panel of the food label.
- (3) The manufacturer's lot code/lot identification number shall be shown on the commercial bill of lading.
- (4) Shipping containers shall be marked to show the maximum safe stacking height. It is the responsibility of the contractor in cooperation with the shipping container manufacturers to determine the safe stacking height.
- (5) For identification upon receipt at delivery warehouses, all commercial-labeled product shipping documents shall specify "FOR USDA FOOD DISTRIBUTION PROGRAMS."

C. All labels shall cite any enrichment ingredients.

Section 2.3 CONTAINERS AND MATERIALS

- A. All containers and packaging shall be constructed to meet the requirements of the Food and Drug Administration (FDA) for safe contact with the packaged product. The contractor shall obtain and maintain documentation from the container or packaging material manufacturer to verify that the containers and packaging materials used in this contract were in compliance with the Government's regulatory requirements for safe contact with food products as required in the Master Solicitation for Commodity Procurement, Regulatory Requirements for Commodities and Packaging.
- B. Questions concerning the containers and materials should be directed to:
Senior Contracting Officer
Ray Boyd
Telephone (816) 926 2612 or Email Roy.Boyd@ams.usda.gov
- C. If the contractor purchases packaging and container ingredients from a foreign country and/or the package and container is manufactured in a foreign country, the package and container SHALL NOT display country of origin labeling. Phrases similar to but not inclusive of, "Made in [Name of Foreign Country.]" or "Product of [Name of Foreign Country.]" are strictly prohibited

Section 2.4 UNITIZATION REQUIREMENTS

Shipments shall comply with the following unitization requirements:

- A. Unless otherwise specified by the Government, all shipments of packaged products shall be unitized (palletized and stretch wrapped).
- B. Pallets shall be:
 - (1) Constructed to facilitate the safe handling and transportation of the packaged product, as a unit, without loss or damage.

- (2) A Number 2, four-way, reversible flush stringer with no broken runners or slats.
 - (3) Suitable for use in the shipment of food products.
- C. Plastic stretch wrap shall be:
 - (1) Constructed of a plastic film which is to be stretched a minimum of 50 percent beyond its original length when stretched around the pallet load.
 - (2) Applied as tightly as possible around all tiers of the palletized shipping containers. The shipping containers shall be held firmly in place by the stretch wrap.
- D. Pallet loads shall be:
 - (1) Stacked in such a way as to minimize the amount that shipping containers overhang the edges of pallets.
 - (2) Blocked and braced or otherwise loaded into the conveyance in a manner that prevents shifting during transit.
- E. USDA does not participate in pallet exchange.
