4A52.214-2 Basis of Offers

- 1) Offers shall be submitted as a differential price per pound to the CME Group (CME) barrel cheese cash market price for the Process cheese.
- 2) The Differential Price in WBSCM will accept positive, zero (\$0.0000), and negative offer prices (i.e., - \$0.0300). A blank price field will be interpreted as no offer for a particular state. A price of zero (\$0.0000) IS A VALID PRICE and is an offer of flat market price to the CME Group. Anticipated delivery cities by type and/or pack are identified elsewhere within this solicitation. Offerors are encouraged to enter a price for each state displayed on the Item Detail Attributes page.
- 3) The contract price for a delivery month shall be the total of the accepted differential price, PLUS the following economic price adjustment (EPA): the previous month average (PMA) of the CME Group cash barrel cheese trading as reported in USDA's *Dairy Market News*.
- 4) The month average for the PMA is a simple average of all the daily closing prices for barrel cheese during the calendar month of the CME Group cash trading. Previous month means the first full Gregorian calendar month before the first day of the delivery period on the contract delivery order.
- 5) In the event the CME Group prices are not available or do not accurately represent the market (as determined by the Government), the Government may use the Agricultural Marketing Service (AMS) cheese price series (or suitable replacement) as the basis for calculating the PMA value for barrel or block cheese.
- 6) Offerors may submit offers for less than the quantities indicated.
