Compared to last week: All feeder cattle were too lightly tested last week to develop an accurate market trend, however steady to higher undertones were noticed. Both calf and yearling quality was average today. Most feeders were offered in small packages or as singles. Market activity was mostly moderate to active today. Buyers were active both ringside as well as over the internet bidding on offerings. Weigh up cows comprised most of todays sale. Cow quality this week was mostly average to attractive. Packer buyers showed lighter demand for all cows this week, while private buyers showed good to very good demand for all cows suitable to feed. Many lame, low yielding cows continue to be seen and many were purchased to feed again this week. Packer buyers showed lighter demand for short term feeding cows this week which allowed prices to slide lower. Feeding cow demand was good and stayed good throughout todays sale. Feeding cows sold steady to 2.00 higher on high quality cows suitable to feed to premium white. Thin feeding cows sold mostly 2.00-5.00 lower. Demand for slaughter cows was mostly light. Slaughter cows sold steady to 2.00 lower on breaking cows; boning and lean cows sold 2.00 to 5.00 lower. Weigh conditions were mostly average today. Slaughter bulls sold mostly 3.00 to 6.00 lower. Demand from packer buyers was significantly lighter this week which allowed all bull prices to slide lower. Quality today was mostly average for bulls. Young age cows suitable to feed or rebreed sold mostly steady to 3.00 higher. Demand from rebreed buyers remains good to very good, especially for light weight offerings. Quality this week was average to attractive. Buyers showed lighter demand for heavy weight young cows this week especially 3 to 4 year old cows. Buyers pushed these cows just out of reach of feeding buyers but gave little premium above feeding cow price. Many of these cows were purchased to feed, pregnancy check or use as receipt cows in E.T. programs. Supply included: 25% Feeder Cattle (27% Steers, 3% Dairy Steers, 52% Heifers, 19% Bulls, 0% Dairy Heifers); 44% Slaughter Cattle (91% Cows, 8% Bulls, 1% Dairy Cows); 30% Replacement Cattle (87% Stock Cows, 13% Bred Cows). Feeder cattle supply over 600 lbs was 23%.
