1/ Receipts are listed according to the location of the producer, not the location of the regulated handler. Regional and Total U.S. figures may not add due to rounding. Excludes volumes not pooled due to disadvantageous price relationships. 2/ Computed from data contained in "Milk Production, Disposition and Income - 2009 Summary", NASS, USDA. NOTE: NASS "milk marketed" includes milk sold to plants and dealers, milk sold directly to consumers, and milk produced by institutional herds. 3/ Milk marketed that is eligible for fluid use (Grade A in most States). 4/ Includes data for New Jersey, Delaware, and Rhode Island for which the information is administratively confidential. 5/ Includes data for Alaska, Hawaii, Montana, Nevada, Utah, and Wyoming for which the information is administratively confidential.

1/ Number of orders under which milk produced by dairy farmers located in the state was marketed to regulated handlers. For example, milk produced in New York was marketed under three Federal milk orders in 2009. The regional figure is the net number of orders under which the milk produced by dairy farmers located in the region was marketed to regulated handlers.

1/ The source of the receipt is based on the location of the producer, not the location of the regulated handler. Marketing area totals may not add due to rounding. 2/ For some marketing areas, receipts from some states have been combined to protect confidentiality. The states are listed by decreasing proportions of deliveries to the marketing area. For some marketing areas, handlers elected not to pool producer milk that normally would have been associated with the marketing area due to disadvantageous price relationships.
