All of our farmers have subscribed to our [rBST statement](#).

Schneider's Dairy receives their milk supply from approximately 80 local independent family dairy farms that sell their milk exclusively to Schneider's. The farmers share the same philosophy as the dairy, and we work together to uphold our strong family morals. Our farmers willingly have signed an agreement affidavit pledging that their farming practices do NOT include the use of the Growth Hormone rBST. Together, our large family believes in doing things the old fashioned way. What sets us apart is we do it with the highest level of modernization, creativity, and innovation. These attributes make the local farms and our company the dairy of choice because together we care about the needs of our customers.
