

WR Reserve Black Angus Beef Program G-107 Specification

1 REQUIREMENTS

Beef carcasses certified under this specification shall meet the following requirements:

- a. Phenotypic requirements of the American Angus Association's (AAA) Live Animal Specification;
- b. Classed as Steer or Heifer carcasses only¹;
- c. U.S. Prime, Choice, or Select and have a marbling score of:
 - i. WR Reserve Premium Black Angus Beef, Prime - Full range of marbling allowable in the Prime grade,
 - ii. WR Reserve Premium Black Angus Beef, Private Treaty, Choice - Upper two-thirds range of marbling allowable in the Choice grade,
 - iii. WR Reserve Premium Black Angus Beef, Choice - Full range of marbling allowable in the Choice grade,
 - iv. WR Reserve Premium Black Angus Beef, Select - Full range of marbling allowable in the Select grade¹;
- d. Less than 30 months of age with lean color, texture, and firmness, meeting the requirements for A maturity in the U.S. grade it qualifies for¹;
- e. Medium or fine marbling texture^{1,2};
- f. Moderately thick or thicker muscling and tend to be at least moderately wide and thick in relation to their length³;
- g. No hump exceeding 2 inches in height⁴;
and
- h. Free of "dark cutting" characteristics.

2 CERTIFICATION

Carcasses to be examined for compliance with this specification shall be clearly identified and presented to an AMS grader for certification. Certification procedures for identification, the removal of preliminary identification marks (or other methods of control) from non-qualifying carcasses, and

¹ Determined in accordance with the "Official United States Standards for Grades of Carcass Beef."

² Evaluated using the USDA-AMS-LS-SB-02 Marbling Texture card (included in the Official USDA Marbling Photographs.)

³ Muscle thickness is evaluated by averaging the thickness of the various parts, considering not only the proportion of each part of the carcass but also the general value of each part. Superior muscle thickness implies a high proportion of meat to bone and a high proportion of the weight of the carcass in the more valuable parts.

⁴ Measured from a line formed by the extension of the top line (including the fat) and measuring the lean muscle (excluding the fat) perpendicular to that line in the center of the hump.

control of certified carcasses shall be in accordance with established Quality Assessment Division (QAD) procedures.

3 LABELING

Labeling of products derived from certified carcasses must follow Food Safety and Inspection Service regulations and policy guidelines and QAD procedures.

4 FEES

The costs of all grading and certification services performed by an AMS grader involving examinations, supervision, official documentation, and related services shall be borne by the person, group, or plant requesting the service.
