

## Upper Iowa Farms Certified Beef Program G-148 Specification

### 1 REQUIREMENTS

Beef carcasses certified under this specification shall meet the following requirements:

- a. Classed as Steer and Heifer carcasses only<sup>1</sup>;
- b. Have a minimum marbling score of Slight 0<sup>1</sup>;
- c. Moderately thick or thicker muscling and tend to be at least moderately wide and thick in relation to their length<sup>2</sup>;
- d. No hump exceeding 2 inches in height<sup>3</sup>;
- e. Practically free (not detracting from visual quality) of capillary rupture in the ribeye muscle; and
- f. Free of “dark cutting” characteristics.
- g. Free of any yellow fat cover characteristics.

### 2 CERTIFICATION

Carcasses to be examined for compliance with this specification will be clearly identified and presented to an AMS grader for certification. Certification procedures for identification, the removal of preliminary identification marks (or other methods of control) from non-qualifying carcasses, and control of certified carcasses shall be in accordance with established Quality Assessment Division (QAD) procedures.

### 3 LABELING

Labeling of products derived from certified carcasses must follow Food Safety and Inspection Service (FSIS) regulations [9 CFR part 317.2](#), [9 CFR part 412.1](#), policy guidelines found at [FSIS: Labeling and Label Approval website](#) and [FSIS: Claims Guidance website](#) and QAD procedures including [QAD 107: Requirements for Grading Terms on Meat Product Labeling](#).

---

<sup>1</sup> Determined in accordance with the “Official United States Standards for Grades of Carcass Beef.”

<sup>2</sup> Muscle thickness is evaluated by averaging the thickness of the various parts, considering not only the proportion of each part of the carcass but also the general value of each part. Superior muscle thickness implies a high proportion of meat to bone and a high proportion of the weight of the carcass in the more valuable parts.

<sup>3</sup> Measured from a line formed by the extension of the top line (including the fat) and measuring the lean muscle (excluding the fat) perpendicular to that line in the center of the hump.

#### 4 FEES

The costs of all grading and certification services performed by an AMS grader involving examinations, supervision, official documentation, and related services shall be borne by the person, group, or plant requesting the service.
