Dear Gino,

I have just read the notice which announces pending talks on the elimination of the exemption of local small producer dairies/processors from paying the commodities tax. As a consumer and vendor of such a product, I want to voice my strong opposition to this action. While we are strictly an organic produce farm, we know many people who will be adversely affected, both economically and dietarily, by the adoption of this proposal. I strongly urge the committee to DO NOTHING.

Respectfully,
