United States Standards for Grades of Mixed Nuts in the Shell

Effective August 18, 1981
(Reprinted - January 1997)

United States Standards for Grades of Mixed Nuts in the Shell ¹

General

51.3520 General

Grades

51.3521 U.S. Extra Fancy.

51.3522 U.S. Fancy.

51.3523 U.S. Commercial or U.S. Select.

General

§51.3520 General.

Any lot of mixed nuts in the shell which is classified as meeting the requirements of a U.S. grade for mixed nuts in the shell is required to conform to the applicable mixture, sizes, and grades set forth in one of the following grades. Each species of nut shall be graded individually in accordance with U.S. standards currently in effect for that species. The percentages in the mixture shall be determined on the basis of weight, and each species must conform to the minimum and maximum percentages specified in the mixture as set forth in §§51.3521 -- 51.3523. A composite sample shall be drawn to determine mixture, size, and grade. When any species in a lot fails to meet the applicable requirements as to mixture, size, or grade prescribed for a particular U.S. grade for mixed nuts in the shell, the entire lot fails to meet the requirements of such U.S. grade.

¹Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act, or with applicable State laws and regulations.
