CHAPTER 1. TRIBAL POLICY

1.1 Findings and Purpose

(a) In 2018, the U.S. Congress enacted the 2018 Farm Bill (“Act”) that allows for the controlled cultivation of hemp in accordance with the Act, and a State or Tribal plan approved by the Secretary of Agriculture.

(b) The Soboba Band of Luiseño Indians (“Soboba” or “Tribe”) has decided to open specific lands within its jurisdiction to the cultivation, processing, and distribution of hemp by enacting this Tribal Plan (“Tribal Plan” or “Plan”).

(c) This Plan shall govern the cultivation, processing, and distribution of hemp on the Reservation, will be the basis of the “tribal plan” described in the Farm Bill, and will provide an additional source of revenue for tribal operations to provide funding for its members and the community.

(d) Tribal regulation of the possession, cultivation, processing and distribution of hemp on the Reservation is necessary to protect the health, security, and general welfare of the Tribal community. In order to further these goals, the Tribe has adopted this Plan, which shall be liberally construed to fulfill the purposes for which it has been adopted.

(e) Nothing in this Plan shall be deemed to be in conflict with the federal Controlled Substances Act.

(f) The regulations and penalties imposed by this Plan extend to any person within the Soboba reservation and other Tribal trust lands.

1.2 Sovereign Immunity

Nothing in this Plan shall be construed to limit the jurisdiction of the Tribe or tribal law enforcement personnel, and nothing herein shall limit or constitute a waiver of the sovereign immunity of the Tribe or its officers, instrumentalities, employees, elected officials, and agents, or authorize any form of a prospective waiver of such sovereign immunity.

1.3 Exemption from Prosecution for Certain Acts

No employee of a hemp business shall be subject to prosecution or civil penalty under the jurisdiction of the Tribe for the cultivation, possession, production, or distribution of hemp when acting in accordance with this Plan and federal law.

1.4 Effective Date

This Plan shall be effective upon the enactment by the Soboba General Council and approval of the United States Department of Agriculture in accordance with applicable law.

CHAPTER 4. HEMP COMMISSION

4.1 Establishment

(a) The Soboba Hemp Commission (“Commission”) hereby is established to regulate all commercial hemp operations on lands within the Tribe’s jurisdiction, which includes but is not limited to, the cultivation, production and/or distribution of commercial hemp, and to exercise all powers necessary to effectuate the purposes of these Regulations and any other laws or regulations applicable to commercial hemp on lands within the Tribe’s jurisdiction. In carrying out its purposes under this Plan, the Commission shall function as an arm of the Tribe.

(b) The Commission shall be identified as the agency that will take finger prints for conducting criminal history checks.

(c) The Commission shall consist of no less than three (3) members and one (1) alternate that shall be appointed by the Tribal Council for terms of two (2) years. The Tribal Council is authorized to limit one member's term to one (1) year, excluding the alternate, for the first term to provide for staggered terms. There shall be no limit on the number of terms to which a Commissioner may be appointed.

(d) A Commissioner may be removed from office by the Tribal Council prior to the end of the Commissioner's term only for cause and pursuant to the process set forth in Section 4.9.

(e) All members of the Commission shall continue to serve until their successors are appointed, except that no such member of the Commission shall continue to serve more than one year after the date on which his or her term would otherwise expire, at which time his or her position will become vacant unless that vacancy would result in there being no Commissioner in office.

(f) Upon resignation, removal, death or any other reason creating a vacancy prior to the end of a Commissioner's term, the Tribal Council may appoint a replacement Commissioner to fill the remaining term of a Commissioner being replaced.

(g) If the Tribal Council intends to fill a vacancy occurring on the Commission, the vacancy shall be filled by a majority vote of the Tribal Council within sixty (60) calendar days of the occurrence of the vacancy for whatever reason. If the vacancy occurs within ninety (90) days prior to the date upon which the term of the Commissioner being replaced otherwise would expire, the Tribal Council shall specify whether the successor Commissioner is being appointed for a full two-year term, or for the unexpired balance of the term of the Commissioner being replaced.

(h) The Commission shall recruit and employ a Hemp Control Officer ("HCO"), subject to final approval by the Tribal Council, who shall be responsible for managing, supervising and overseeing the daily activities of the Commission. The HCO shall serve as a full-time employee and shall report directly to the Commission. In the event there is a vacancy in the position of the HCO, the Tribal Council shall designate one of the Commissioners or other qualified person to act as interim HCO pending appointment of a permanent HCO.

4.2 Independence

To ensure that the Commission will be able to adequately protect the Band's assets and integrity of commercial hemp operations conducted on lands within the Band's jurisdiction, the Commission shall be and shall act independently and autonomously from the Tribal Council, Tribal Administration management and the General Council in all matters within the Commission's purview and responsibilities. Specifically, the Commission's actions shall not be subject to prior or subsequent review or approval by the General Council, the Tribal Council or Tribal Administration management except as otherwise expressly provided in these Regulations or by other applicable law or ordinance. As an arm of the Band, the Commission shall be cloaked by the Band's sovereign immunity; however, the Commission

shall not be bound or affected by any contractual waiver of the Band's sovereign immunity made in the Band's proprietary capacity.

4.3 Suitability of Commissioners

(a) Qualifications. Candidates for appointment to the Commission must possess sufficient education, hemp industry training and/or experience to satisfy the Tribal Council that he/she will be able to competently perform the duties of office. In addition, candidates must have a clean credit history, not have been convicted of any felony or other crime involving dishonesty, and not have any other attributes that would render the candidate unsuitable.

(b) Backgrounds. Candidates for appointment to the Commission shall complete license applications and shall be subject to the same background investigations for commercial hemp production licensure as required otherwise under these Regulations or by the guidelines of the USDA, but Commissioners need not actually be licensed. Such background investigations shall be performed at the direction of the Tribal Council by an independent third party selected by the Tribal Council. Upon completion and review of the results of a prospective Commissioner's background investigation, and assuming that the candidate otherwise possesses qualifications acceptable to the Tribal Council, the Tribal Council shall, by majority vote, either approve or deny the appointment of a Commissioner. Appointment of Commissioners shall be made by Tribal Council Resolution.

(c) If the Tribal Council has reason to believe that a Commissioner has violated any provision(s) of these Regulations or any other applicable law while in office, the Tribal Council shall direct an investigation to be conducted by an independent third party selected by the Tribal Council. Any action to remove a Commissioner from office for cause shall be conducted in compliance with Sec. 4.

4.4 Restrictions on Commissioners

(a) Conflicts. In order to avoid conflicts of interest or the appearance of conflicts of interest, no person shall be appointed to, or if appointed, continue to serve on the Commission if:

(i) Such person is a member of the Tribal Council or is a member of the same household or immediate family of a Tribal Council member; or

(ii) Such person's employment or other duties on boards, other activities, including business activities or relationships, actually conflicts or is reasonably likely to conflict with his/her duties and responsibilities as a Commissioner.

(b) A Commissioner shall recuse himself/herself from any investigation into, or vote concerning, any matter involving any member of the Commissioner's immediate household, sibling, spouse, registered domestic partner, parent, step-parent, grandparent, child, step-child or grandchild.

(c) No Commissioner may have a financial interest in any Soboba hemp facility or accept any complimentary goods or services from any Soboba hemp facility, or its investors, partners, etc., supplier of goods or services to any Soboba hemp facility, or any patron, vendor or employee of any Soboba

hemp facility; provided, that nothing herein precludes a Commissioner from accepting gifts in connection with traditional holidays or celebratory events such as birthdays, anniversaries or similar celebrations from family members, personal friends, or relatives who might patronize a Soboba hemp facility.

4.5 No Financial Interest in Hemp Operations

No Commissioner shall have any direct or indirect financial interest in any commercial hemp operation. Further, a Commissioner may not provide services to a commercial hemp operation or have an ownership or other financial or controlling interest in an entity (such as retail sales) that is subject to the Commission's jurisdiction.

4.6 Commission Compensation

The Commission is a non-paid position. Commissioners may be compensated by stipend, as may be set by the Tribal Council.

4.7 Organization and Meetings

(a) All decisions of the Commission shall be made by a majority vote of those present at a Commission meeting at which a quorum is present. The Commission shall conduct meetings on such dates and at such times and places as it deems necessary. A quorum of the Commission shall consist of at least two Commissioners. Commissioners can attend and participate in Commission meetings telephonically or by other electronic means, as long as each Commissioner can hear and be heard by all other Commissioners at all times during such meeting.

(b) Individual Commissioners shall have no authority to take official action on behalf of the Commission.

(c) Each vote by a Commissioner in a Commission meeting shall constitute a discretionary act taken within the course and scope of the Commissioner's duties and authority, and no Commissioner may be held individually liable for any such discretionary act. The Commission shall defend and indemnify a Commissioner who is sued as an individual based upon voting as a Commissioner, unless the Commission has a reasonable basis to believe that the vote was cast as the result of bribery or other corrupt activity.

(d) One alternate shall be appointed to the Commission. The alternate shall be non-voting unless and until he/she is required to fill in for a Commissioner. Alternates are expected to attend all Commission meetings. Alternates are subject to the same qualifications, powers and duties, removal and other terms and conditions of the position of a commissioner.

4.8 Powers and Duties

(a) The Commission, acting primarily through the HCO, shall regulate Soboba's commercial hemp operations and the personnel employed therein, and shall conduct oversight to ensure compliance with the requirements of applicable Soboba, federal and California laws, ordinances and regulations. The

Commission shall discharge its duties and exercise its authority in a manner that will best promote and ensure the integrity, safety, security, honesty and fairness in the administration and operation of all commercial hemp operations on lands within the Band's jurisdiction.

(b) The Commission shall promulgate comprehensive commercial hemp policies and procedures and other appropriate writings as required by applicable law to which the Band may be a party. The Commission shall submit any policies and procedures to the Tribal Council for approval before taking effect.

(c) The Commission shall establish and periodically update legal standards and ensure ongoing compliance with those standards. The Commission shall maintain a complete and current inventory of all commercial hemp operations and related equipment (whether or not such devices or equipment are in use) located at anywhere within the Commission's jurisdiction.

(d) The Commission, acting primarily through the HCO, shall conduct, or cause to be conducted by qualified third-party contractors, background investigations on all applicants for licenses and shall require that licensees periodically update background information at such times as the Commission, in its discretion, may require. With regard to all licensees, the Commission shall have the power and authority to approve or deny any license application; to limit, cancel, revoke, terminate, condition, modify, suspend, or restrict any license; to make findings of suitability; to inspect and license commercial hemp facilities and related premises; and to impose fines or sanctions upon any licensee determined to have violated these Regulations or other applicable law or regulation, subject to the hearing process set forth in Section 18 of these Regulations. The Commission is empowered to conduct regulatory enforcement and other hearings and appeals as provided in these Regulations or any other applicable law, ordinance or regulation.

(e) The Commission shall maintain complete and confidential records regarding the following: all applications, financial statements, fingerprints, contracts, licenses, suspension and cancellation notices, and correspondence to or from all applicants and licensees, commercial hemp facilities, operations, and suppliers of commercial hemp goods and services, reports relating to disputes, complaints or claims, and notices from and correspondence with all federal and State regulatory agencies.

(f) The Commission shall submit such written reports to the Tribal Council as the Tribal Council may from time to time request, including but not limited to: number and types of licenses issued during the previous calendar quarter; identity of licensees; information regarding license denials, suspensions or revocations; and reports of any events of noncompliance, breach or violations of any applicable law or regulation; provided, however, that the Commission need not include in its reports confidential information obtained during background investigations or other matters that are the subject of or related to a pending Commission investigation or hearing; and provided further, that the Tribal Council shall not disseminate such reports to the General Council unless the names and other identifying information of individuals identified in such reports have been redacted to protect the applicable privacy rights, if any, of such individuals.

4.9 Removal

(a) A Commissioner may be removed from office by the Tribal Council prior to the end of the Commissioner's term only for official acts of malfeasance, misfeasance, unexcused failure to perform the duties of his/her office, or official or unofficial conduct that renders the Commissioner unfit to occupy a position of trust or that is reasonably likely to damage the Commission's and/or the Soboba Band's reputation for integrity and competence. Mere disagreement with a Commission decision, or an individual Commissioner's vote on a Commission decision, shall not constitute grounds for removal of a Commissioner. Notwithstanding any other provision of these Regulations, the Tribal Council may, by a vote of a majority of the Tribal Council members then in office, temporarily suspend a Commissioner for up to fourteen (14) calendar days, if the Tribal Council has probable cause, based on reliable information, to believe that grounds exist to remove a Commissioner.

(b) A Commissioner subject to removal shall be given written notice at least fourteen (14) calendar days before the Tribal Council convenes to consider his/her proposed removal. The written notice shall set forth with specificity the grounds for removal. The notice shall also inform the Commissioner of the date, time and location when the Tribal Council will consider the proposed removal.

(c) A Commissioner subject to removal from office shall be afforded the opportunity to present written and oral testimony and other evidence to the Tribal Council before it renders a final decision. The Tribal Council shall issue a final decision on removal within ten (10) calendar days of the date of the hearing. Removal of a Commissioner shall require a determination by a majority vote of the Tribal Council that there are substantial grounds for removal. If there are fewer than five members on the Tribal Council, a Commissioner may be removed by a majority vote of the members of the Tribal Council then in office. If the Commissioner has been temporarily suspended pending the hearing, the Tribal Council may continue the suspension under the same terms and conditions pending issuance of its decision after hearing.

(d) The Tribal Council's decision after the hearing shall be in writing and shall set forth specific findings on each allegation of cause for removal. A Commissioner shall not be removed unless the Tribal Council determines that there are substantial grounds upon which the Commissioner should be removed for malfeasance, misfeasance, nonfeasance or official or unofficial conduct that renders the Commissioner unfit to occupy a position of trust or that is reasonably likely to damage the Commission's and/or the Soboba Band's reputation for integrity and competence, and its written decision, which is final, shall be provided to the Commissioner within five days of issuance.

4.10 Sovereign Immunity of Hemp Commission

When acting under the color of its authority, the Commission shall enjoy all of the privileges and immunities of the Tribe, including sovereign immunity from suit in the state, federal, or tribal court.

(a) The Commission shall have no authority to waive the sovereign immunity of the Tribe, or any other Tribal entity.

(b) Nothing in this Plan shall be deemed or construed to be a waiver of the Tribe's or the Commission's sovereign immunity from suit.

(c) Nothing in this Plan shall be deemed or construed as consent of the Commission to the jurisdiction of the United States, any state, or any other Tribe with regard to the business or affairs of the Commission.

(d) Notwithstanding any other provision herein, as an entity of the Tribe, the HCO's immunity from suit shall at all times be deemed waived for actions against the Commission initiated by the Tribal Council on behalf of the Tribe.
