

September 29, 2006

Dear folks,

I'm a dairy farmer from Pennsylvania. I would like to submit a few comments on pricing milk.

1. There should be a cost of production factor included in the price for the farmer. There is one included for the processor.
2. The Chicago Mercantile Exchange should be investigated for price manipulation.
3. The affect of overloading the stocks with imports to create an artificial surplus to drive down our prices should be excluded.
4. The ability for Coops to bloc vote should be stopped so that the individual farmer can have a real say.

Thank you very much,

A handwritten signature in black ink that reads "Hal M Drick". The signature is written in a cursive, slightly slanted style.
